

This plane is a scaled-down version of the Veritas® Low-Angle Block Plane. The body is investment cast stainless steel that has been accurately machined and surface ground. The plane features a functional Norris-style adjuster made from stainless steel.

### Blade Adjustment

Should the blade adjustment mechanism ever get out of the proper configuration, reposition the parts as shown below.

### Blade Sharpening

The 0.060" thick by 1/2" wide A2 tool steel blade has the bevel ground at a 25° angle.

*Note: A corrosion-inhibiting paperboard chip is included in the case. It will provide continuous corrosion protection for up to two years.*

### Accessory

**05P82.21** Replacement Blade
